

South Dakota's Sportsmen Support Wilderness

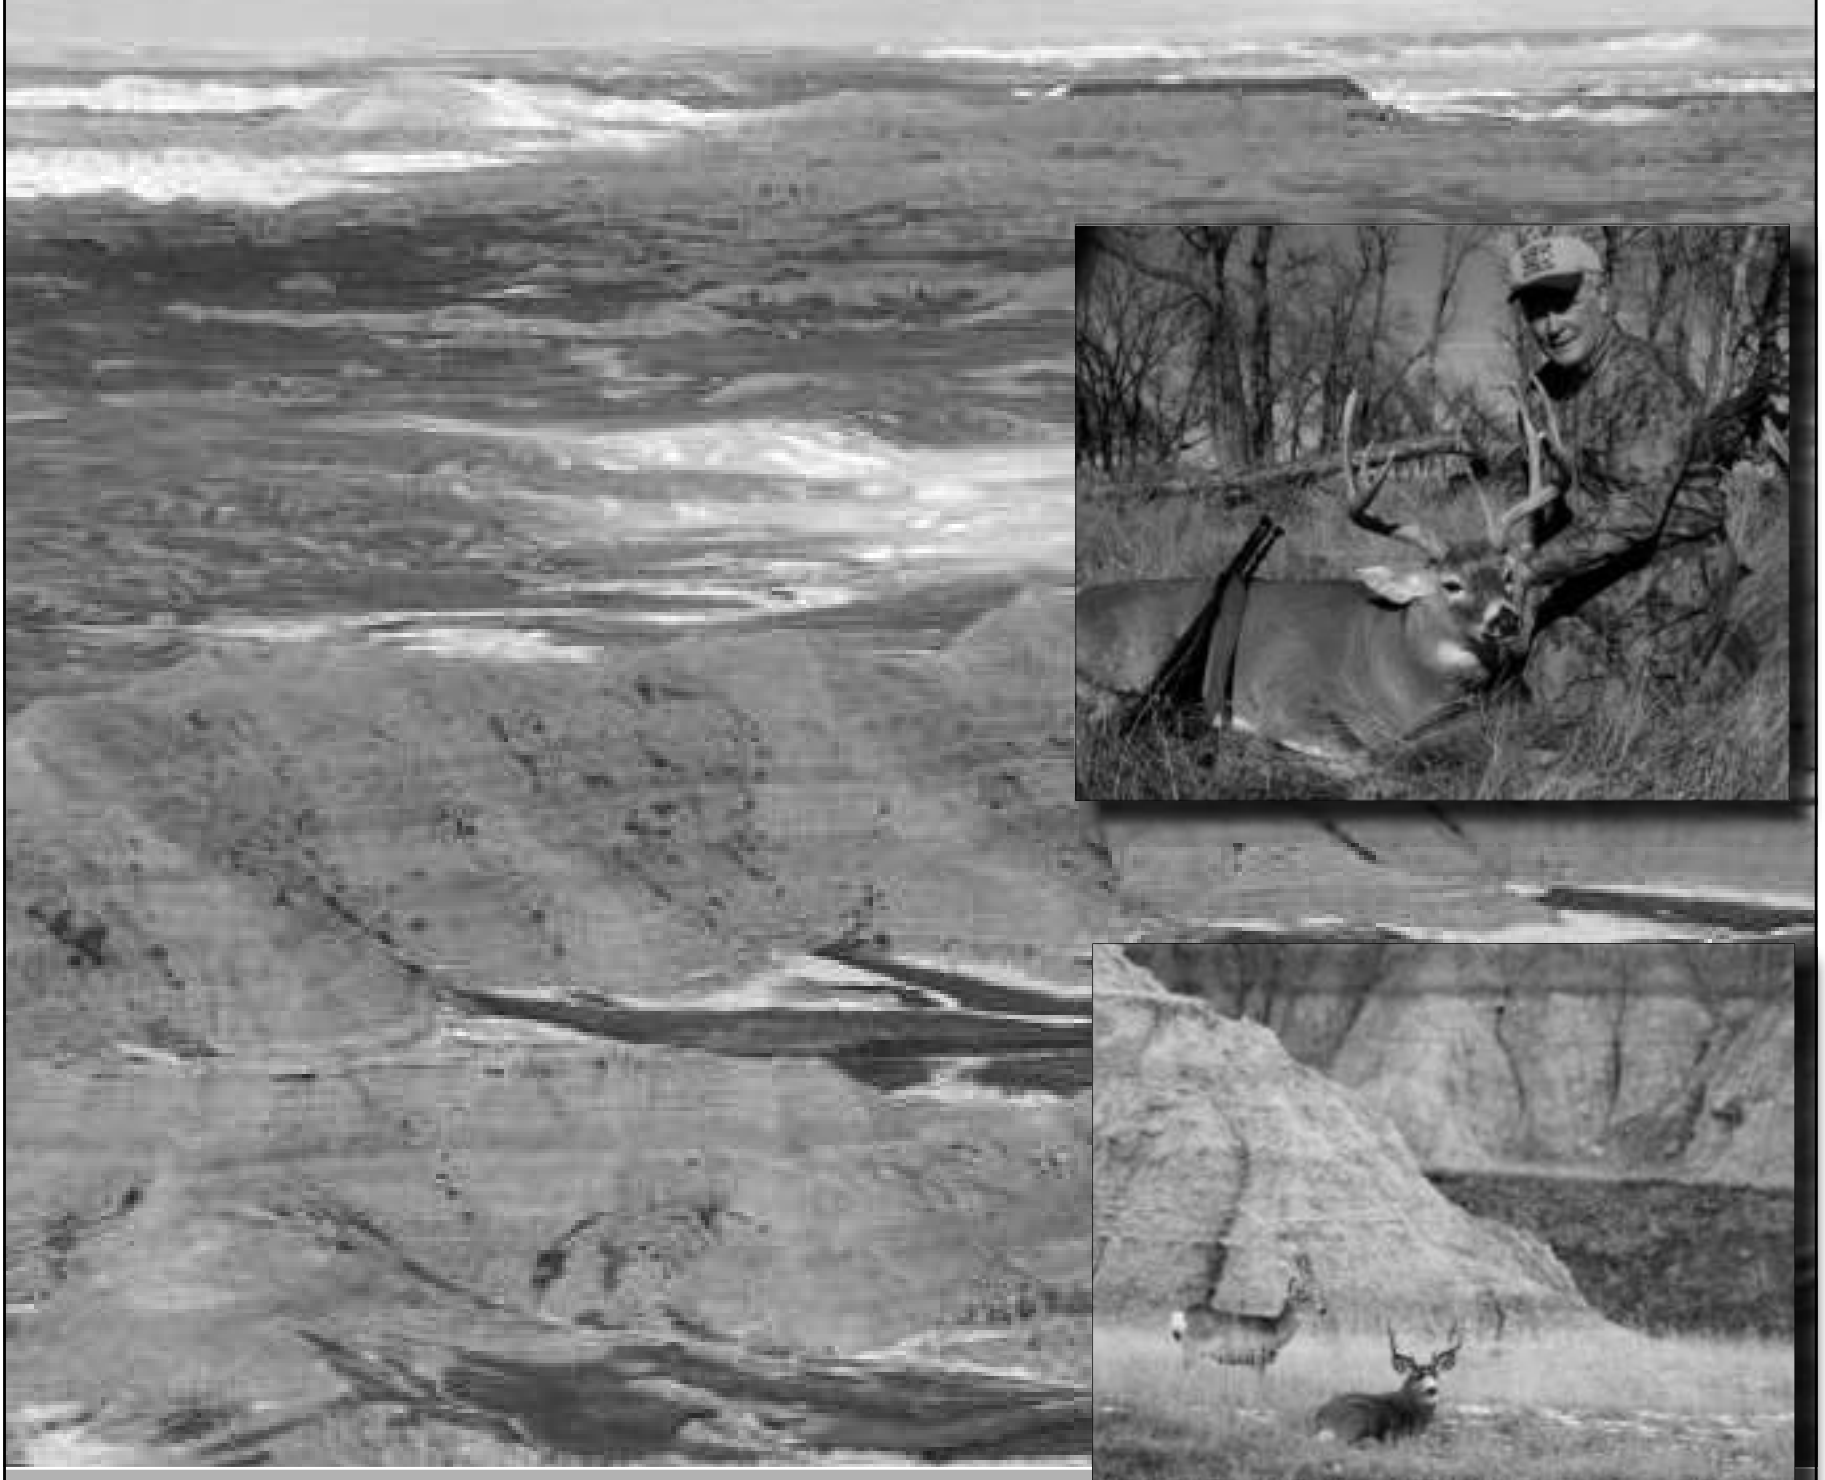

Photo by: SD Dept of Tourism

Thank you, Senator Johnson

for your leadership in protecting part of the Buffalo Gap National Grassland as wilderness. Sportsmen know that wilderness provides the finest traditional hunting experience, thanks to the undisturbed wildlife habitat. A grasslands wilderness in South Dakota would give residents and out-of-state visitors unsurpassed hunting opportunities, while contributing to local economies.

We look forward to working with you, Senator Johnson, to preserve wilderness hunting opportunities on the Buffalo Gap National Grassland.

Sincerely,
